| F - Roof Cross Poles | M - Floor Liners |
| G - Center Roof Piece | N - Roof Skin |
| H - Front/Back Center Pieces | O - Floor Skin |

The **Silverback grow tent** is AgroMax's most innovative grow tent yet. With an innovative "diamond pattern" reflective liner for **ULTIMATE** light spread, ultra-high ceilings, a green tent skin, and custom leaf zippers, this tent sets the bar for grow tents.

Please Note:

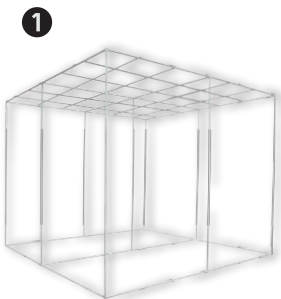

- B & C poles interlock together as shown below (Fig. A)
- Metal corners should be attached as shown below (Fig. B)
- Port covers attach over the three lower access ports and has three options: Fully Cover, Mesh Vent Cover, and Off.
- Please be patient and gentle while pulling the tent skin over the frame to avoid any tearing seams

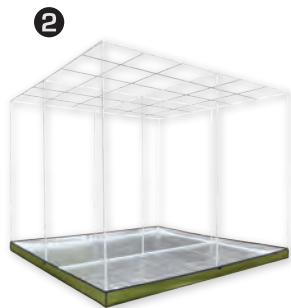

NEW AgroMax LINER PATTERN

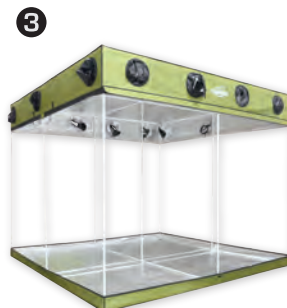

MORE FEATURES

Assemble the frame as noted above

Set frame into the floor skin (N)

Drape the roof skin (M) over the top of the frame

Zip the wall (J) to the top and bottom of the skin and insert floor liner (L). Your tent is now ready for lighting, ventilation, and plants
