

AgroMax™ **PURE SCRUB**

4 LAMP F24T5HO

UV-C AIR PURIFIER

INSTRUCTIONS

WARNING: Never Service When Illuminated!

Step 1: Carefully twist and lock into place the 4 AgroMax UV-C bulbs into the fluorescent lamp sockets.

Step 2: Using the attached eye-hooks hang the Pure Scrub unit in-line with your ventilation system. (Note: Pure Scrub is made to fit standard 6 inch ducting. It can be used in conjunction with reducers and enlargers to fit other systems.)

Step 3: Use foam neoprene collars or ducting taper to make all joints/unions air tight and completely sealed of light escape.

Shown with Fan and Filter (only included in Pure Scrub Fan/Filter Combo)

Personal Protective Equipment Warning: Personal protective equipment is required only in situations when the baffle/filter housing is removed and the lamp is operating. In those situations personal protective equipment would include skin and eye protection such as gloves, long sleeves with no gap between the cuff and the gloves, and a UV resistant face shield. **IMPORTANT:** There are serious risks to UV-C exposure. UV-C can be dangerous if improperly used and it could take only moments for UV-C exposure to cause serious damage. Protect skin and eyes from exposure. Limit exposure duration.

This product should be operated in compliance with – Recommended Practice for Photobiological Safety for Lamps and Lamp Systems – General Requirements by the ANSI/IES RP-27.1-15 Standard

CAUTION: High Intensity Ultraviolet Energy. Protect Skin and Eyes.
