

# TRIMINATOR® BUCKMASTER PRO SPECIFICATIONS

## MACHINE SPECS

**HEIGHT** 57 INCHES

**WIDTH** 50.5 INCHES

**LENGTH** 36.75 INCHES

**WEIGHT** 240 POUNDS

**AC VOLTAGE** 120 V / 240 [CALL FOR MORE INFO]

**POWER** 1/2 HP MOTOR

**AMPS REQUIRED** 7 A

**POUNDS/HOUR** UP TO 300

**WARRANTY** 1 YEAR

## KEY FEATURES

**WET AND DRY CONFIGURATIONS**  
Quickly change bucking profiles as strains and conditions demand.

**SCALE AS YOU GROW**  
Modular upgrade kit allows you to double your production when you need it.

**FEEL THE POWER**  
The 1/2 HP USA Made LENZE motor delivers massive torque for non-stop bucking.

**100% PRESSURE-WASHABLE**  
IP-65 rated components make pressure washing fast and easy.

**GMP COMPLIANT**  
Stainless steel touchpoints and an easy to clean design make for easy GMP compliance.

**BUILT TO LAST**  
Robust design and USA made components are built for years of reliable service.

## MORE ABOUT

The Triminitor® Buckmaster pro is built for commercial ag with an innovative design that doubles the production of traditional buckers.

Designed with two operator stations, the Buckmaster Pro is built for speed, with twice the bucking power of the standard Buckmaster. The stainless steel and aluminum construction is built to last, and wash-down grade components make cleaning fast and easy. Finally, customizable height, ergonomic material holders, and an emergency stop keep operators safe and productive.
