WHAT IS ROOT•JUICE™?

Made entirely from vegetable ingredients and designed for organic gardening, Root•Juice™ combines two amazing natural substances: premium humic acid and seaweed. It's specially formulated to encourage vigorous root development and enhance the natural biological life that surrounds and supports your plant's root system.

Right from the start, Root•Juice™ helps with the initial roots stage as well as the growth of plants that have already rooted. This ensures the plant is better prepared to absorb nutrients more quickly – resulting in a strong, resilient crop and a guaranteed good harvest for all plant breeders.

HOW TO USE IT

If you're using All•Mix® or Light•Mix® substrates, it's best to feed plants during the first week(s) with Root•Juice™ as this is the crucial time period for healthy rooting. Root•Juice™ is ideal for adding to soil, peat and coco mixes, as well as providing guaranteed root protection with hydroponic or aeroponic systems.
