Safety Data Sheet

Advanced Nutrients Big Bud Powder

Section 1. Identification

GHS product identifier	:	Advanced Nutrients Big Bud Powder
Other means of	:	Product Code: 5000
identification		Formula Code: 001A
Recommended use of the	:	A plant nutrient used to obtain faster growth and larger
chemical and restriction on		yields in all kinds of growing media. Not to be used as food or
use		feed in any forms.
Supplier/Manufacturer's	:	Advanced Nutrients
details		8687 Melrose Ave, Suite G320
		West Hollywood, CA 90069
		Tel: (877) 604-8637
		Email: info@advancednutrients.com
		www.advancednutrients.com
Emergency Phone number	:	CHEMTREC Emergency Phone Numbers:
		1-800-424-9300 (North America, including Canada and
		Mexico) CCN 613830
		1+703-527-3887 (International) CCN 613830

Section 2. Hazard Identification

GHS classification of the substance/mixture	:	Neither the mixture nor its major constituents are listed in (a) the CLP/GHS database (Table 3.1 and 3.2 of Annex VI to CLP) or Regulation (EC) No 1272/2008 of the European Parliament & of the Council, and (b) OSHA Laws & Regulations (29 CFR - 1910 Subpart Z: Table Z-1 to Z-3) as hazardous materials.
GHS label elements		
Pictogram symbol	:	Not applicable.
Signal word	:	No signal word.
Hazard statement	:	No known significant effects or critical hazards.
Precautionary statement		
General	:	Read label before use.
		Keep out of reach of children.
		If medical advice is needed, have product container/label at hand.
Prevention	:	Not applicable.
Response	:	Not applicable.
Storage	:	Not applicable.
Disposal	:	Dispose of contents and container in accordance with local,

regional, national and international regulations.

Other hazards (not covered

the GHS

: None known.

Section 3. Composition/Information on Ingredients

Substance/Mixture	:	Mixture.		
Chemical identity	:	Not applicable.		
Common name/synonym	:	Not available.		
CAS number and other	:	Not applicable.		
unique identifiers				
Impurities and stabilizing	:	Not applicable.		
additives				
Ingredient name		CAS number	%	Classification according to

Ingredient name	CAS number	% (w/w)	Classification according to OSHA Laws & EU Regulations
Potassium Sulfate	7778-80-5	40-80	Not classified as hazardous.

The chemical identity of some of the ingredients and their exact proportions used in the mixture are a proprietary trade secret (protected by the Confidential Business Information – CBI) and, within the current knowledge of the manufacturer and in the concentration applicable, they are not hazardous to health or the environment.

Section 4. First-aid Measures

Description of necessary meas	sur	es
Self-protection of first- aiders	:	No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person
General information	:	providing aid to give mouth-to-mouth resuscitation. Remove contaminated clothing immediately. In case of accident or unwellness, seek medical attention immediately.
Inhalation	:	Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if adverse
Skin contact	:	health effects persist or are severe. Flush contaminated skin with plenty of water. Get medical
Eye contact	:	attention if symptoms occur. Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove
Ingestion	:	any contact lenses. Get medical attention if irritation occurs. Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If
		material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the

	exposed person feels sick as vomiting r not induce vomiting unless directed personnel. If vomiting occurs, the head that vomit does not enter the lungs. Ge adverse health effects persist or are anything by mouth to an unconscious p	to do so by medical should be kept low so et medical attention if e severe. Never give
	place in recovery position and ge immediately. Maintain an open airway.	
Most important symptoms/e	s, acute and delayed:	
Inhalation	No known significant effects or critical h	nazards.
Skin contact	Not known health effects due to skin co	ntact.
Eye contact	f in eyes, it causes eye irritation.	
Ingestion	f swallowed, it irritates mouth, throat a	and stomach.
Indication of immediate med	ttention and special treatment needed	l:
Notes to physician	Treat symptomatically. Contact poisor immediately if large quantities have inhaled.	•
Specific treatments	No specific treatment.	
See also toxicological information	tion 11).	

Section 5. Fire-fighting Methods

Suitable extinguishing media	:	Any media suitable for extinguishing a surrounding fire.
Unsuitable extinguishing media	:	None known.
Specific hazards arising from the chemical	:	No specific fire or explosion hazard. Decomposition products may include sulfur oxides and phosphorus oxides.
Special protective equipment for fire-fighters	:	Firefighters may enter the area if a self-contained breathing apparatus (SCBA) and a full face piece is worn.
Special protective precautions for fire-fighters	:	No special protection is required.

Section 6. Accidental Release Measures

Personal precautions, prote	Personal precautions, protective equipment and emergency procedures		
For non-emergency personnel	:	Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.	
For emergency personnel	:	If specialized clothing is required to deal with the release, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non- emergency personnel".	

Environmental precautions Methods and materials for cor	: nta	Avoid dispersal of released material and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). inment and clean up
Small spill	:	Stop leak if without risk. Move containers from spill area. Dilute with water and mop up. Dispose via a licensed waste disposal contractor.
Large spill	:	Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations. Dispose via a licensed waste disposal contractor.

Section 7. Handling and Storage

Precautions for safe handling		
Advice on general hygiene	:	Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.
Protective measures	:	Put on appropriate personal protective equipment (see Section 8).
Conditions for safe storage and any incompatibilities	:	Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

Section 8. Exposure Controls/Personal Protection

Control parameters		
Occupational exposure	:	Not applicable according to OSHA's mandatory PELs in the Z-
limits		Tables.
Biological limit values	:	None.

Appropriate engineering controls	:	No special ventilation requirements. Good general ventilation should be sufficient to control worker exposure
		to airborne contaminants.
Environmental exposure		Emissions from ventilation or work process equipment
controls	•	should be checked to ensure they comply with the
		requirements of environmental protection legislation.
Individual protection measur	es	
Hygiene measures	:	Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Ensure that eyewash stations and safety showers are close to the workstation location.
Personal Protective	:	PPE should be used in conjunction with other control
Equipment (PPE)		measures, including engineering controls, ventilation and isolation. See Section 5 (Fire-fighting measures) of the SDS for specific fire/chemical PPE advice.
Eye/face	:	Safety eyewear complying with an approved standard should
protection		be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts.
Skin protection	:	Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
Respiratory	:	Use a properly fitted, air-purifying or supplied air respirator
protection		complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.
Thermal hazards	:	None.

Section 9. Physical and Chemical Properties

Appearance (physical state)	:	: Solid (powder), light beige, dull	
Odor	:	Mineral, protein	
Odor threshold	:	Not available	
рН	:	Not applicable	

Melting point/Freezing	•	Not applicable
point	•	
Initial boiling point and	:	Not applicable
boiling range		
Flash point	:	Not applicable
Evaporation rate	:	Not applicable
Flammability (solid, gas)	:	Not flammable
Upper/lower flammability	:	Not applicable
or explosive limits		
Vapor pressure	:	Not applicable
Vapor density	:	Not applicable
Relative density	:	Not available
Solubility (ies)	:	Miscible in water
Partition coefficient: n-	:	Not available
octanol/water		
Auto-ignition temperature	:	Not applicable
Decomposition temperature	:	Not available
Viscosity	:	Not applicable

Section 10. Stability and Reactivity

Reactivity	:	No specific test data related to reactivity available for this product or its ingredients.
Chemical stability	:	The product is normally stable.
Possibility of hazardous reactions	:	Under normal conditions of storage and use, hazardous reactions will not occur.
Conditions to avoid	:	Avoid freezing temperatures and high humidity. Avoid unnecessary contact with skin, eyes or ingestion.
Incompatible materials	:	Not applicable.
Hazardous decomposition	:	Under normal conditions of storage and use, hazardous
products		decomposition products should not be produced.

Section 11. Toxicological Information

Acute toxicity				
Ingredient	Toxicity	Species	Dose*	Remark
Potassium sulfate	Oral LD50	Rat	No toxicity	For analog substance (KCI)- 6600mg/kg bw
	Inhalation LC50	Rat	No toxicity	Not significant for analog substance.
	Dermal LD50	Rat	>2000 mg/kg bw	Not toxic.

*- Obtained from ECHA (Updated Apri	l 25	, 2017)
Skin corrosion/irritation	:	There is no data available.
Serious eye damage/ irritation	:	There is no data available.
Respiratory or skin sensitization	:	There is no data available.
Germ cell mutagenicity	:	There is no data available.
Carcinogenicity	:	There is no data available.
Reproductive toxicity	:	There is no data available.
STOT-single exposure	:	There is no data available.
STOT-repeated exposure	:	There is no data available.
Aspiration hazard	:	There is no data available.
The Likely routes of exposure, hea	lth	effects and Symptoms related to the physical, chemical
and toxicological characteristics		
Eye contact	:	No known significant effects or critical hazards.
Inhalation	:	No known significant effects or critical hazards.
Skin contact	:	No known significant effects or critical hazards.
Ingestion	:	No known significant effects or critical hazards.
Delayed and immediate effects an	d a	Iso chronic effects from short or long term exposure
Short-term exposure		
Potential immediate	:	No known significant effects or critical hazards.
effects		
Potential delayed effects	:	No known significant effects or critical hazards.
Long-term exposure		
Potential immediate	:	No known significant effects or critical hazards.
effects		
Potential delayed effects	:	No known significant effects or critical hazards.
Potential Chronic health	:	No known significant effects or critical hazards.
effect		
Numerical measures of toxicity		
Acute toxicity estimate		
Oral	:	There is no data available.
Inhalation of vapors	:	There is no data available.

Section 12. Ecological Information

Toxicity				
Ingredient name	Result*	Species	Exposure	Reference
Potassium Sulfate	Acute LC50 720 mg/l Fresh water	Aquatic invertebrate - Daphnia	48 hours	ECHA
	Acute LC50 680 mg/l Fresh water	Fish- Fathead minnows	96 hours	ECHA
Persistence and degradability	: There is no	data available.		

Bio accumulative potential	:	There is no data available.
Mobility in soil	:	There is no data available.
Other adverse effects	:	No known significant effects or critical hazards.

Section 13. Disposal Considerations

Disposal of waste methods	:	Disposal of all waste must be done in accordance with municipal, provincial and federal regulations. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. No sewage disposal!!
Contaminated packaging	:	Empty containers should be recycled or disposed of through an approved waste management facility. Persons conducting disposal, recycling or reclamation activities should follow the information in Section 8 of this SDS.

Section 14. Transport Information

Identification of ingredients according to UN Model Regulations				
UN number	This product is a mixture of ingredients which are not listed as			
UN proper shipping name	'Dangerous Goods' in Chapter 3.2 of UN Recommendations on			
Transport hazard class(es)	the Transport of Dangerous Goods.			
Packing group				
Special precaution for user	Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.			
Transport in bulk	Not applicable (≤ 1000L-container).			

Environmental hazards

Ingredient's name	IMDG	UN	ADR	RID	ADN
	-	-	-	-	-

Section 15. Regulatory Information

Safety, health and environmental regulations	:	No known specific national and/or
specific for the product in question		regional regulations applicable to this
		product (including its ingredients).

Section 16. Other Information

Prepared by	: Department of Product Development, Advanced Nutrients Ltd., Canada
Date of preparation	: 03/21/2016
Version	: 7

Date of Revision	: 01/23/2023
Revised Sections	: Section 1
Key Acronyms:	
ADN	: The European Agreement concerning the International Transport of Dangerous Goods by Inland Waterways
ADR	: The European Agreement concerning the International Carriage of Dangerous Goods by Road
